Located in New York City's chic NoHo neighborhood sits 75 Kenmare, a stylish 38-unit residence with interiors designed by Kravitz Design, the namesake interior design company founded by Lenny Kravitz. Currently listed for \$4.79 million by Fredrik Eklund and John Gomes from Million Dollar Listing, is a stunning two-bedroom and two-bath unit. 5A has been dubbed the quintessential "Lenny" unit and with just one look inside, you'll know why.

75 Kenmare is the first luxury condominium in NYC to feature interiors by Kravitz Design. From contemporary design accents to bright and airy floor plans, the "Lenny" unit is breathtaking. Owners will enjoy a stunning kitchen, beautiful living area, and of course, gorgeous views of New York City. "My vision for 75 Kenmare centers on a layered environment, drawing inspiration from the eccentric Downtown vibe while integrating elegant materials, such as unique natural stones, bonded metal and aged oak," says Lenny Kravitz of Kravitz Design.
